

Capacity Development on the Institutionalization of Regulatory Impact Assessment in the Food and Drug Administration

Food and Drug Administration

Capability Development Program on Various IGUs Environmental Governance and Management for Resiliency and Future Readiness of Local Government Units (under CBUS)

2023 May 02

2023 Dec 29

The Capability Development Program on Environmental Governance and Management for Resiliency and Future Readiness of Local Government Units is a 5 month training that shall focus on strengthening the management capacities of the key actors in the local government units and key partners in the various IGU councils, on environmental management and sustainability. According to the United Nations (UN) World Commission on Environment and Development, environmental sustainability is about acting in a way that ensures future generations have the natural resources available to live an equal, if not better, way of life as current generations. The current problems on climate change, disasters, and environmental degradation as well as the IGU's responsibilities to maintain people's safety, deliver basic social services, and create livelihood opportunities continue to be a challenge for the IGUs and their development partners. This situation requires more equipped and competent key actors, adaptive, innovative, and resilient in addressing the risks brought about by the natural hazards and future threats to its community. The program is titled "Local Government Units' Capability Building/Development". The course is composed of five (5) didactic modules and four (4) post-module community applications that run for five (5) months. It shall include concepts on environmental management and sustainability, IGU decision making tools and innovations for IGU community actions, using nature-based solutions. 2. IGU Change Initiative on Climate Action or Sustainable Environmental Governance- With the potential risks from climate change and natural hazards, risk management plan, and actions shall form part of the change initiative that the participating IGU shall produce. These may be in any of the program's thematic areas, e.g., water, energy, sanitation, disaster risk reduction, waste management, as well as circular economy among others, that can address climate, disaster risk reduction or environment related issues as well as the low IGU performance on environmental governance and SDGs. 3. IGU Environmental Profiling and Needs Assessment- This component will establish the basic environmental profile of IGUs to call out issues, recurring problems and be the basis for the proposed change initiative. This can be conducted by reviewing the IGUs' performance score cards and shall focus on:

32	MBHR	Certificate Course on Hospital Quality Improvement Batch 5	Public Sector	2023 Aug 01	2023 Dec 15	Quality improvement in healthcare is intended to ensure that health services are effective, safe and focused on the needs of the patient. Health systems in most countries, especially in low and medium income countries, are overburdened and stretched that quality is not given sufficient attention. The delivery of unsafe, unequal and inequitable health services will negate the intention of promoting health among the population. This theory based and practice focused training course is intended for staff in healthcare facilities, e.g. hospitals and clinics. The course offers the participants the opportunity to understand the complexity of health systems and how quality improvement initiatives could strengthen health systems. Furthermore, participants will learn quality improvement tools to enable them to analyse problems, search for solutions, plan and apply these in implementing quality improvement programs in their own setting. At the heart of the discussions on quality is the delivery of safe care.
33	MOHP	Certificate Course on Productivity and Quality Management Batch 2	Public and Private	2024 Sep 01	2023 Mar 31	This is an introduction to the practice of productivity and quality management (PQM) in organizations. System thinking is used as a framework to guide the PQM practice. Managing the context of PQM provides the springboard for organizations to start their respective journey with PQM.

61	QDGLK	GQMP2022 Development of a Quality Management System Certifiable to ISO9001:2015 Standard for the Department of Agriculture	Department of Agriculture	2022 Apr 01	2023 Mar 31	Given that effective management and good governance are essential elements of quality that can be achieved through an effective Quality Management System (QMS), the Development Academy of the Philippines, through the General Appropriations Act of 2022, has funding for the Technical Assistance on the Development, Expansion, Consolidation of ISO9001:2015 QMS Risk Management and Service Quality Improvement for 13 GQMP Beneficiary Agencies, including the Department of Agriculture. In this regard, the Academy is implementing the project entitled "Development of a Quality Management System Certifiable to ISO9001:2015 Standard for the Department of Agriculture".
62	QDGLUO	GQMP2022 Measurement of Whole of Government Citizen Satisfaction and Enhancement of Service Quality Standards for Public Sector Organizations	Various NGA's	2022 Jan 01	2023 May 15	The Development Academy of the Philippines (DAP) through the Government Quality Management Program (GQMP) proposes a whole of government approach in measuring citizen and business satisfaction and advocates adoption of evidence based Service Quality Standards (SQS) and DAP's Service Quality Measurement (eSQM) Tool for measuring agency level client satisfaction. These initiatives seek to aid continual government wide quality improvement in the design and delivery of agile frontline and public services supportive of risk based thinking. This intervention is being implemented under the GQMP Component 2 project on Institutionalizing the Service Quality Standards. The GQMP Component 2 project seeks to develop SQS for citizen centered frontline government service during and post-pandemic using "outside in" approach. This is done through listening to the people, understanding their needs and expectations, and determining frontline government service delivery aspects that are most important to the citizens and businesses and may also guarantee their satisfaction. In particular, the project aims to determine the yearly overall citizen or business satisfaction scores of the whole of government based on identified service dimensions and attributes of frontline government services and make recommendations to enhance the whole of government approach on continual quality improvement by determining evidence based SQS supportive of risk based thinking. This year, the GQMP Component 2 project intends to continue its initiative in conducting the annual whole of government satisfaction survey through the 2022 Citizen Satisfaction Survey (CtSat). In addition, the project also intends to facilitate the increase of awareness on the importance of SQS and its institutionalization through the adoption of a national policy on SQS for public sector organizations (PSOs). They will be influenced to adopt evidence based SQS to improve citizen and business satisfaction, reinforce risk based thinking and support continuous improvement towards excellence in public service design and delivery. Likewise, they will be encouraged to use the eSQM Tool for measuring real time citizen/client satisfaction and complementing improvement efforts in service design and delivery based on citizen/client feedback.
63	QDGVZ	GQMP2023 Capability Building Intervention on Quality Management System (QMS)	Various NGA's	Feb 16 2023	Feb 15 2023	The GQMP shall implement various Capability Building Intervention on the Quality Management System (QMS) to selected beneficiary agencies (BAs) on the complex management of its ISO9001:2015 QMS in its various units (e.g. procurement, documentation, auditing, QMS) and HSE Self Assessment to selected beneficiary agencies (BAs). 77	QGISO	GQMP2023 Technical Assistance on Philippine Information Quality Management System Agency Transition to ISO 9001:2015 Standard for the Philippine Information Agency	2023.In01	2023 Dec 31	<p>The Philippine Development Plan (2023-2028), a plan for deep economic and social transformation to reignite job creation and accelerate poverty reduction, emphasizes the importance of quality and excellence in public service delivery. It recognizes that quality services are essential to achieving the government's vision of inclusive growth, poverty reduction, and sustainable development. The plan highlights the need for government agencies to adopt international standards and to continuously improve their systems and processes to provide better services to the public. This clear and compelling direction of the Administration further intensifies the need for government agencies to comply with Executive Order No. 605, Institutionalizing the Structure, Mechanisms, and Standard to Implement the Government Quality Management Program, which was issued to effect improvement in public sector performance by ensuring the consistency, predictability, and service quality that quality goes to the core.</p>

106	DFGU	Middle Managas Class Batch 32- Capstone Project	Various NGAs	2023.11.24	2024. Aug 30	The Capstone Project is a separate module of the EMDP. It is an integrating activity where the EMDP scholar draws from his/her significant experiences and his/her learning in the various courses and activities of the curriculum of the EMDP to address agency or customer-specific concerns and opportunities. Through this activity, each scholar creates a space that enables him/her to demonstrate the extent to which he/she has internalized the concepts discussed in the program, mastered the skills developed and applied these competencies as appropriate and useful to the context of his/her workplace. The Capstone gives the scholar the chance to formulate his/her strategies focused towards the achievement of pre-identified goals and objectives, to organize and to manage his/her project team either within his/her unit, inter-unit or inter-agency, to create and to implement a work plan that will deliver the desired results/outputs, to obtain the resources needed for implementation within the period set by the program and to evaluate this experience in light of his/her being a development manager.
107	DFGQ	Middle Managas Class Batch 32- Residential Training	Various NGAs	2023.11.08	2024. Jan 31	The EMDP is the National Government's Career Executive Service Development Program which aims to produce a network of peak performing development-oriented, ethical, and committed government executives and middle managas in the Philippine bureaucracy. It contributes to the achievement of the Philippine government's goal to promote people-centered, clean, efficient, and effective governance through strengthened institutions.
108	QGGD	Modernizing Government Regulations Program 2023- 27th, 28th, & 29th Basic Course on RA, FS	Public Sector	2023 May 01	2023 Dec 31	The Modernizing Government Regulations (MGR) Program aims to contribute to the improvement of the competitiveness of the Philippines through regulatory governance reform by facilitating a conducive environment for business to develop and grow. Crucial to the success of the MGR Program is to strengthen the capability of government regulatory bodies on regulatory management and good regulatory practices (GRPs). It is with this goal in mind that the Capability Development Component of the MGR Program has been implemented.
109	RORG	Organizational Development: Rightsizing of City IGO of Oroquieta	City Government of Oroquieta	2023. Jan 08	2023 Sep 15	It was in 1998 that the city government of Oroquieta last undertook a major Rightsizing. Close to three decades from that, there is that evident need to seriously look into its organization to make it more inclusive, adequate, and responsive in the present time and beyond, particularly considering the going towards implementing the Supreme Court's Miranda Garcia Ruling starting in 2022. The City Government of Oroquieta enlisted the technical expertise of the Development Academy of the Philippines - Mindanao to complement the IGO's plan to improve and further develop its organization and human resource, and to become a City IGO that is resilient, innovative, responsive to constituents, environmentally sustainable, competent, proactive, with organizational integrity and strength in institutional tie up and networking. This project responds to the request of City IGO Oroquieta last 20 October 2021 for technical support in further improving its organization and human resource through an Organizational Development Process (Rightsizing).
110	RMRC	Organizational Structure and Staffing Plan and Compensation Framework for the National Transmission Corporation (TransCo 2008P)	National Transmission Corporation	2022 Feb 15	2023 Apr 30	The project aims to facilitate the development of a proposed Organizational Structure and Staffing Plan for the National Transmission Corporation as provided under Governance Commission for GOCCs B - C.

118	MOGLX	Research on Sustainable Development Goals and Futures Thinking 2022	Public and Private	2022, Jan 01	2023 Dec 31	<p>The GSDMR Research Program fulfills the function of the Graduate School as a hub for knowledge creation. It focuses on two areas: 1. research and publication, and 2. research capacity building. GSDMR's five-year Research Agenda is anchored on Sustainable Development Goals, Philippine Development Plan, AmBisyon Natin 2040 and the DAP Mandate. It aims to generate evidence for innovation and change to achieve the SDGs in Philippine national and local contexts, and to co-create knowledge for public management at the higher education (tertiary) level to support public sector performance. The program has three phases. Research Phase 1 for year 2020 consists of mapping, scoping and situational analysis of</p>

137	GRRJ	Training Course on Futures Thinking for DOSI Regional and Provincial Offices	Department of Science and Technology	2023 Jul 01	2023 Oct 13	Foresight and futures thinking are essential in today's fast-moving and technology-driven world. It enables us to anticipate and shape the future, identify new opportunities, and manage risks, providing us with the tools to move beyond reactive and incremental responses to emerging issues and instead develop strategic and proactive solutions. At the same time, foresight can be instrumental at different levels of government and in various stages of the planning cycle, empowering communities and integrating citizen aspirations towards a transformative and sustainable agenda. Therefore, the Development Academy of the Philippines (DAP) is committed to ensuring that national government agencies (NGAs) are equipped with effective and adequate skills for the future. To this end, the DAP's Center for Strategic Futures (DAPCSF), a strategic unit under the Office of the DAP President, delivers programs and services that mainstream futures thinking and innovation methodologies in planning and decision-making processes in the country. Hence, the Department of Science and Technology (DOSI) is seeking the technical assistance of the DAPCSF through its Futures Thinking and Innovation Laboratory to conduct capacity building for their Regional and Provincial Offices on Futures Thinking and Strategic Foresight.
